IN AND FOR PINELLAS COUNTY, FLORIDA  
CIVIL DIVISION

MELVIN SEMBLER,  
Plaintiffs,

vs

UCN: 522003CA006649XXCICI  
Ref. No.: 03-6649-CI-013

RICHARD BRADBURY,  
Defendant.

---

EMERGENCY  
MOTION FOR A PROTECTIVE ORDER AND OTHER RELIEF

COMES NOW Richard Bradbury by and through his undersigned counsel and moves this Court for a Protective Order and for other relief and as grounds therefor would show:

1. This case arose as a claim by the Plaintiffs that the Defendant intentionally caused them emotional distress and invaded their privacy. It seeks damages and injunctive relief.
2. To date the Plaintiffs have resisted any meaningful discovery into those claims, and there is still pending before this Court a Motion to Compel answers to interrogatories.

3. On December 7, 2004, Mr. Bradbury was deposed for approximately six hours. At the conclusion of this deposition, counsel for the Plaintiff announced that he was not halfway through his questioning, and the deposition was re noticed for continuation starting tomorrow, December 15, 2004.

4. During the deposition, counsel for the Plaintiff engaged in a course of conduct that was calculated to embarrass, humiliate, and traumatize the Defendant. For nearly three hours he asked the Defendant detailed questions about his financial affairs, an issue which has nothing to do with this case, but which the undersigned allowed to go forward in the spirit of the Rules of Civil Procedure, the local rules and the prevailing standards of conduct. One can only imagine what Plaintiff's counsel might do if the Semblers were subjected to harsh questions about their finances.

5. Some of this questioning went into the details of car repossessions: "So was every car you ever owned repossessed? (The answer is no) " <sup>1</sup> and other lawsuits: "Isn't it true that Richard Mulholland also sued you for stalking? (The answer is no and a copy of the salient lawsuit is attached as Exhibit A) " Other questions

---

<sup>1</sup>The quotations used here may not be verbatim because a transcript of the deposition has not yet been made available, but they are accurate paraphrases.

had to do with whether or not Bradbury has paid his federal income taxes, or filed timely tax returns. Several questions had to do with his income in the nineteen nineties. A number of questions began with phrases like "You understand you are under oath," and "Do you understand what happens if you do not tell the truth when you are under oath?" Another odious tack was the machine-gun like repetition of questions about other witnesses with whom Bradbury's testimony may not entirely corroborate. In those instances, whether they were real or imagined, counsel insisted on having Bradbury answer the question "Are you saying that Robin Guess (and in another instance the author of some document) is a liar?"

These kinds of questions must be seen in context. Bradbury was a victim of unlawful practices of an organization known as Straight, Inc. In Straight Bradbury was abused and falsely imprisoned. Bradbury lays blame for this at the feet of the Plaintiffs and has been an activist for his cause since the late nineteen eighties. After Bradbury posted a penis pump he found in trash outside the Semblers' home in 2003, counsel wrote him a letter saying he would now become the Semblers' "prey." Bradbury did not take this threat lightly.

6. As a victim of abuse, Bradbury suffers from Post Traumatic Stress Disorder.

The day after the deposition he sought medical attention and on December 9, 2004

he was placed on prescription medication a copy of said prescription is marked Exhibit B. The brutality of the questions put to him the length of time of the deposition last week, and the prospect of rescheduling it so soon will have a deleterious effect on Mr. Bradbury's health. A copy of an affidavit of Sidney Merin, Ph.D., the original of which is in the mail is attached and marked "Exhibit C." It is Dr. Merin's opinion that it will be harmful to Bradbury's mental health, and perhaps to Bradbury's physical safety if tomorrow's deposition goes forward.

7. Pursuant to the rules Counsel has tried to work out this issue with opposing counsel. Regrettably there has been no resolution, but instead there has been a threat that if Bradbury's deposition does not go forward that the Plaintiffs' will cancel the Semblers' deposition now scheduled for January, 2005.

8. Bradbury has retained the undersigned to represent him in this cause and has agreed to pay reasonable fees therefor.

**Wherefore** Bradbury prays for an order protecting him from having to be deposed on December 15, 2004, and further protecting him from being asked questions that are not calculated to lead to the discovery of admissible evidence, and which are asked to him in a respectful tone. He further prays for attorneys fees for this motion and such other relief as this Court deems appropriate and just.

Respectfully Submitted,

#### COUNTERCLAIM AND DEMAND FOR JURY TRIAL

COME NOW Counterclaimants, RICHARD MULHOLLAND AND ASSOCIATES and RICHARD MULHOLLAND, individually, and sue Counterdefendants, RICHARD BRADBURY, J. BENTON STEWART, and J. BENTON STEWART LAW GROUP, and state as follows:

#### GENERAL ALLEGATIONS

1. This is an action for monetary damages in excess of \$15,000.00, exclusive of interest and costs.
2. All acts giving rise to this cause of action occurred in Hillsborough County, Florida.
3. At all times material to this cause of action, Counterdefendant J. BENTON STEWART was an agent, servant or employee of J. Benton Stewart Law Group and was acting in the course and scope of his employment with said law firm of J. Benton Stewart Law Group.
4. On or about September 22, 2000, Counterdefendant, RICHARD BRADBURY, was engaged in activity in front of the office building located at 101 East Kennedy Blvd., Tampa, Florida, with such activity being commonly known as "picketing" or "demonstrating". Said Counterdefendant, RICHARD BRADBURY, stationed himself in front of said building in order to attract the attention of the public and to distribute pamphlets titled "NOTICE TO POTENTIAL VICTIMS". 6. At all times material to this cause of action, Counterdefendant, RICHARD BRADBURY was acting in concert with J. Benton Stewart, an attorney licensed to practice law in the State of Florida, who was advising Bradbury as to the goals, methods, means, and legalities *vel non* of conducting the so-called "picket" or "demonstration". The actions, utterances and publications of Bradbury were made with the full knowledge, consent and suggestion of Stewart in order that Stewart might induce members of the public to become clients of Stewart and join in litigation against Counterplaintiffs.

7. In his statements to the public, the Counterdefendant, RICHARD BRADBURY, uttered, *inter alia*, the following false statements to members of the public:

- (a) That there were a lot of lawsuits against Counterclaimant's law firm;
- (b) That Counterclaimants did not care about their clients or about the results obtained for their clients;
- (c) That Counterplaintiff, RICHARD MULHOLLAND, no longer practiced law;
- (d) That the law firm of Counterplaintiff, RICHARD MULHOLLAND, would disband in less than a year and distribute the law firm's cases to paralegals.

All of the foregoing actions and statements were made in a conspiracy between Counterdefendants, BRADBURY and STEWART, in order to foster their own illicit litigation goals and to harm the professional reputation of Counterplaintiffs.

AFFIDAVIT OF SIDNEY MERIN

1. My name is Sidney Merin.
2. I am a licensed psychologist in the State of Florida.
3. A copy of my curriculum vitae is attached.
4. On December 13, 2004, I evaluated Richard Bradbury for the purpose of determining whether or not he is able to withstand the pressures of the continuation of his deposition presently scheduled for December 15, 2004.

5. It is my understanding that Mr. Bradbury is the Defendant in a case brought by Melvin and Betty Sembler and that his deposition was taken on December 7, 2004, from approximately ten in the morning until four in the afternoon.
6. It is also my understanding that for much of the time of that deposition Mr. Bradbury was questioned about his finances and his involvement in other lawsuits.
7. Having evaluated Mr. Bradbury to see if he can reasonably withstand another deposition in such proximity to his December 7, 2004 deposition, it is my opinion within reasonable psychological certainty that he cannot.
8. While I do not believe Mr. Bradbury poses a threat or danger to third parties, I am concerned that his being placed in another deposition without some controls on the manner in which he is questioned, and without allowing him more time to recover from the trauma of his last deposition, lest he may cause harm to himself.
9. I believe Mr. Bradbury may be suffering from Post Traumatic Stress Syndrome as well as some form of paranoia, both of which will, in my opinion be exacerbated if he is to be deposed on December 15, 2004.

10. It is my intention to have Mr. Bradbury undergo testing so that I may better be able to determine if, how, and when he will be able to deal with a subsequent deposition. This testing will commence in the coming weeks.
